## Computer hardware learning sinhala pdf

Page 2 The Cisco® IT Essentials (v.5.0): PC Hardware and Software course is designed for Cisco Networking Academy® students seeking career-oriented, entry-level hardware and software skills. Target students include those who want to prepare for careers in information and communication technology (ICT) and students who want to gain skills and working knowledge of how computers work, how to assemble computers, and how to troubleshoot hardware and software issues. Prerequisites There are no prerequisites for this course. Target Certifications The IT Essentials: PC Hardware and Software curriculum helps students prepare for the CompTIA® A+ certification exams ( ). Curriculum Objectives The primary objective of this course is to help students prepare for entry-level positions in the ICT field. Job titles include enterprise technician, IT administrator, field service technician, call center technician, help desk technician, and PC or support technician. In addition, the curriculum helps students gain confidence with the components of desktop and laptop computers by teaching the proper procedures for hardware and software installations, upgrades, and troubleshooting. chap-0 IT Essentials 0.0 Navigating the Course 0.1 Introduction to Information Technology 0.2 IT Industry chap-1 Introduction to the Personal Computer 1.1 Personal Computer Systems 1.2 Selecting Replacement Computer Components 1.3 Configurations for Specialized Computer Systems chap-2 Lab Procedures and Tool Use 2.1 Safe Lab Procedures 2.1 Proper Use of Tools chap-3 Computer Assembly 3.1 Computer Assembly 3.2 Boot the Computer 3.3 Upgrading and Configuring a PC chap-4 Overview of Preventative Maintenance and Troubleshooting 4.1 Preventive Maintenance 4.2 Troubleshooting Process chap-5 Operating Systems 5.1 Modern Operating Systems 5.2 Operating System Installation 5.3 The Windows GUI and Control Panel 5.4 Client-Side Virtualization 5.5 Common Preventive Maintenance Techniques for Operating Systems 5.6 Basic OS Troubleshooting chap-6 Networks 6.1 Principles of Networking 6.2 Identifying Networks 6.3 Basic Networking Concepts and Technologies 6.4 Physical Components of a Network 6.5 Network Topologies 6.6 Ethernet Standards 6.7 OSI and TCP/IP Data Models 6.8 Computer to Network Connection 6.9 Select an ISP Connection Type 6.1 Common Preventative Maintenance Techniques Used for Networks 6.11 Basic Troubleshooting Process for Networks chap-7 Laptops 7.1 Laptop Components 7.2 Laptop Display Components 7.3 Laptop Power 7.4 Laptop Wireless Communication Technologies 7.5 Laptop Hardware and Component Installation and Configuration 7.6 Common Preventive Maintenance Techniques for Laptops 7.7 Basic Troubleshooting for Laptops chap-8 Mobile Devices 8.1 Mobile Device Hardware Overview 8.2 Mobile Device Operating Systems 8.3 Network Connectivity and Email 8.4 Methods for Securing Mobile Devices 8.5 Basic Troubleshooting for Mobile Devices chap-9 Printers 9.1 Common Printer Features 9.2 Types of Printers 9.3 Installing and Configuring Printers 9.4 Sharing Printers 9.5 Preventive Maintenance Techniques for Printers 9.6 Basic Troubleshooting for Printers chap-10 Security 10.1 Security Threats 10.2 Security Procedures 10.3 Common Preventive Maintenance Techniques for Security 10.4 Basic Troubleshooting Process for Security chap-11 The IT Professional 11.1 Communication Skills and the IT Professional 11.2 Ethical and Legal Issues in the IT Industry 11.3 Call Center Technicians chap-12 Advanced Troubleshooting 12.1 Computer Components and Peripherals 12.2 Operating Systems 12.3 Networks 12.4 Laptops 12.5 Printers 12.6 Security Certificates/ Transcripts/ Letters can be collected during following following days/times only. (14) When you pulled out the old hardware , you essentially interrupted a magical circuit.(15) Remove any easily removed hardware attached to the trim or mask hardware with tape.(16) The Fairy Silk Canopy requires no special hardware , just a hook or limb to which a ribbon can be tied. ද්‍රව්‍යOther References : ද්‍රව්‍යද්‍රව්‍ය නිමැවීම(5) software and hardware :: ද්‍රව්‍යද්‍රව්‍ය නිමැවීම Word Example from TV ShowsThe best way to learn proper English is to read news report, and watch news on TV. Watching TV shows is a great way to learn casual English, slang words, understand culture reference and humor. If you have already watched these shows then you may recall the words used in the following dialogs. Well, we gotta make a run to the HARDWARE store. The Big Bang Theory Season 9, Episode 19 The same HARDWARE, Westworld Season 2, Episode 4 Just Delos HARDWARE. Westworld Season 3, Episode 8 English to Sinhala Dictionary: hardware Meaning and definitions of hardware, translation in Sinhala language for hardware with similar and opposite words. Also find spoken pronunciation of hardware in Sinhala and in English language. Tags for the entry 'hardware' What hardware means in Sinhala, hardware meaning in Sinhala, hardware definition, examples and pronunciation of hardware in Sinhala language. Information technology creates a lot of changes in our modern society. If we talking about it and other related technologies, computers are the most important peripherals in this area. So there is a huge demand for this profession in the computer hardware repair industry. Having basic knowledge is far enough to become a computer hardware engineer in Sri Lanka. For that, I have mentioned out 5 Computer Hardware Course in Sri Lanka which conducts at private education institutes. 1. Certificate in Computer Hardware at Singer Business School 2. Certificate Course in Computer Hardware and Networking at University of Moratuwa 3. Certificate in PC Hardware Engineering at @ ESOF Metro Campus 4. Computer Hardware Engineering with Networking at Turnkey IT Training 5. Certificate Course in Computer Hardware at National Institute of Business Management Hope that this list will be really important for those who plan to enter into computer hardware industry. The study mentioned program will also helpful to start your own business in the industry. 1. Certificate in Computer Hardware at Singer Business School Singer vocational academy is one of the great places to start your career. Computer Hardware Course in Sri Lanka at Singer Business School is one of the basic computer course which conducts at this institute. The key element of this program is this institute provide on the job training to enhance the effectiveness of learning. Duration of the Program: 8 months Medium of Study: English /Sinhala Contact Information: Singer Business School No 80, Nawam Mawatha, Colombo 02 Tel : +94 76 6177177 Email: sbs@singersl.com Web: 2. Certificate Course in Computer Hardware and Networking at University of Moratuwa Certificate Course in Computer Hardware and Networking is one of the great short term certificate programs which conducts under reputed state university of Sri Lanka. The main objective of this program is to update theoretical knowledge and practical skills on computer assembling. Duration of the Program: 12 Days (12 consecutive Sundays.) Entrance Requirement: Student who pass GCE Advanced Level exam at least two subjects Or At least work experience 6 months in IT related field Course Content: Introduction to computers Assembling a computer Installing software Getting familiarized with Windows utilities Introduction to Network Technologies Setting up of a network Computer and peripheral maintenance Troubleshooting & Repairing of computer peripherals Upgrading hardware and software Internet & e-mail Contact Information: University of Moratuwa Katubedda , Moratuwa Tel : +94 11 2 650301 Email: info@itfac.mrt.ac.lk Web: 3. Certificate in PC Hardware Engineering at @ ESOF Metro Campus Certificate in PC Hardware Engineering is 30 hours short certificate program. The main objective of this program is to provide a good knowledge for those who already in computer hardware industry. There are special practical sessions and separate laboratory facility provides for a student who follows this program. Course Content The Total Computer System Introduction to PC Hardware Identify Hardware Components Motherboard Components & Bus Architecture The CPU Evolution & Architecture Types of RAM Identifying different types of Expansion cards Assembling and Disassembling of Different Types of PC's Hard disk architecture Preparing the Hard disk drive to Install System Software Installing and Configuring Windows XP, Windows 2008, Windows 7 & Linux Troubleshooting & Maintenance Contact Details: ESOF Metro Campus No.03 , De Fonseka Place , Colombo 04 Tel : +94 11 7 572572 Email: info@esoft.lk Web: 4. Computer Hardware Engineering with Networking at Turnkey IT Training Computer Hardware Engineering with Networking is another short program in this area. Those who successfully complete this program will get great confidence in the following area. Assemble and Upgrade Computers Troubleshoot & Repair all kinds of PCs software installation & configuration Networking of computer Contact Details: Turnkey IT Training 562/15B , Lower Bagatelle Road, Colombo 03 +94 11 2 581581, +94 77 2286988 Email: info@turnkey.lk Web: 5. Certificate Course in Computer Hardware at National Institute of Business Management Certificate Course in Computer Hardware is also another basic program which conducts at NIBM. The main purpose of the Computer Hardware Course in Sri Lanka is to obtain knowledge and skills in computer hardware. There is no such entrance qualification required to follow this program and its open for those who are interested in learning Computer Hardware from basics. Contact Details: National Institute of Business Management 120/5 , Wijerama Mawatha, Colombo 07 Tel : 94 11 5 321000, +94 11 2 685806 Email: infomis@nibm.lk Web: Hope that you have gained some good understanding on Computer Hardware Course in Sri Lanka which conducts in private education institute. For more information regarding these programs contact the relevant contact details which mentioned in here.
